QUESTION 1

In which two instances would the MEGARaid utility be used? (Choose two.)

- A. when replacing multiple failed disks in a HCP 500 node
- B. when replacing multiple failed disks in a HCP 300 node
- C. when replacing an entire node in a HCP 300 in which the RAID group is not healthy
- D. when replacing an entire node in a HCP 500 in which the RAID group is not healthy

Correct Answer: BC

QUESTION 2

A customer has an existing HDS archiving solution and has added a new HCP 4.x platform at a remote location. They have taken the replication option as part of the solution. However, attempts to get replication working between the two systems fails. What is the reason?

- A. The distance between the two archive platforms is too far for replication.
- B. The two archive platforms are not configured with matching nodes and disks.
- C. The two replicated platforms are not running identical versions of software.
- D. The original archive platform is running a version of software prior to 3.x.

Correct Answer: D

QUESTION 3

A customer has ordered a 20-node HCP system. You have a limited amount of time to perform the installation. Which action should you take to save time?

- A. Create a core software CD for each node.
- B. Create an appliance OS CD for each node.
- C. Assign all nodes the same IP back-end addresses.
- D. Assign all nodes the same IP front-end addresses.

Correct Answer: B

QUESTION 4

Which username/password pair do you use to log into the HCP System Management Console for the first time?

- A. admin/hds
- B. security/Chang3Me!
- C. hcpadmin/hcpadmin
- D. root/hitachll

Correct Answer: B

QUESTION 5

A customer has integrated the HCP tenant with Enterprise Vault 9.0 (EV9) for Microsoft Exchange 2007.

The EV9 server reads and writes from the HCP without any problem. The

customer would like to grant read access to a few users from certain machines for EV9 backup objects.

Which two actions should the customer perform? (Choose two.)

- A. Configure the proper CIFS and NFS settings on the HCP.
- B. Configure the proper settings on the EV9.
- C. Configure the proper HTTP settings on the HCP.
- D. Configure the proper SMTP settings on the HCP.

Correct Answer: BC
