QUESTION 1

Your customer will be using multiple namespaces in their HCP. Which protocol will allow access to objects by all namespaces?

- A. CIFS
- B. NFS
- C. HTTP
- D. WebDAV

Correct Answer: C

QUESTION 2

A customer ordered a HCP 500 DL system. One of the nodes must be replaced. The HBA is in its original configuration.

Which three actions should you perform? (Choose three.)

- A. Configure the HBA to boot from LUN100 of the connected Hitachi storage system.
- B. Reload the HBA firmware.
- C. Enable the HBA BIOS.
- D. Set the HBA topology to point-to-point.
- E. Set the boot sequence to a USB boot device.

Correct Answer: BCD

QUESTION 3

As tenant administrator for tenant deptA, you are asked to create a new account for deptA-user to access data in tenant deptA. Which two actions would you choose? (Choose two.)

- A. Log into the System Management Console (<https://admin.hcp-ma.example.com:8000>).
- B. Log into the Tenant Management Console for tenant deptA (<https://deptA.hcpma.example.com:8000>).
- C. Create a data access account for the deptA-user.
- D. Create a system account for the deptA-user.

Correct Answer: BC

QUESTION 4

A customer recently acquired a HCP system. They will be ingesting 500,000 objects (office documents) from their existing Windows file server environment to the HCP default tenant. Which two HCP protocols can be used? (Choose two.)

- A. HTTP
- B. CIFS
- C. NDMP
- D. SNMP

Correct Answer: AB

QUESTION 5

You have a customer that uses multiple operating systems in their environment: 80% Windows and 20% UNIX. The customer has recently purchased a HCP solution. Which two authentication solutions apply to Windows? (Choose two.)

- A. anonymous access
- B. Active Directory authentication
- C. ability to enable NFS
- D. ability to enable HTTP and WebDAV

Correct Answer: AB
