QUESTION 2

A customer has a virtualized environment but has not implemented any cloud services. Is this customer qualified for an HP Helion solution?

A. This customer is qualified, particularly if the company is trying to increase service automation

B. This customer is not qualified because the virtualized environment provides the same benefits as cloud services

C. This customer is qualified, particularly if the company is trying to increase its investment in capital expenditures

D. This customer is not qualified because HP Helion is only targeted at customers who have already begun to implement cloud services.

Correct Answer: C

QUESTION 3

Which HP tool provides a guided self-service experience to help you provide customers with initial configurations in a few minutes?

A. Enterprise Configurator

B. HP Product Bulletin
