QUESTION 1

Which area of IT management is covered when integrating HPE Operations Orchestration into a solution?

- A. managing hybrid cloud environments and IT services
- B. automating and coordinating IT processes
- C. simplifying management and control of the data center
- D. delivering high-quality mobile applications

Correct Answer: B

QUESTION 2

Which tool allows you to view implemented SAN designs, and provides a graphical display of the SAN topology?

- A. Navigator
- B. Storage Optimizer
- C. HPE SAN Visibility
- D. HPCC-SAN

Correct Answer: C

QUESTION 3

You are configuring a new HPE 3PAR StoreServ all-flash array for a customer. Which ratio should you expect to have the highest efficiency?

- A. compaction ratio
- B. reclamation ratio
- C. deduplication ratio
- D. read/write ratio

Correct Answer: C

QUESTION 4

One of your customers is the IT director for a regional graphic arts company. The company has 12 branches. Each branch requires a local server providing high-speed access to video and graphic files. The IT director is asking for a proposal to update the servers at each branch to keep up with increasing demand for high-speed and high-volume storage. The customer's staff members have limited IT knowledge. HPE ProLiant servers with DAS will continue to

provide adequate volume for each branch.

Which storage technology can provide appropriate performance and volume size for this customer?

- A. HPE StoreOnce VSA
- B. HPE Peer Motion
- C. HPE SmartCache
- D. HPE Hybrid HDD

Correct Answer: C

QUESTION 5

In which situation is HPE 3PAR StoreServ thin provisioning appropriate and beneficial?

- A. an Oracle database that uses redo log files
- B. 12 hour security-loop recording
- C. an Exchange database in a hospital imaging storage system
- D. a large document management system

Correct Answer: D
