QUESTION 1

Which high availability option is available only for HPE ProLiant Gen9 servers?

- A. HPE Ultrium tape blades
- B. HPE Smart Storage battery
- C. HPE StoreOnce Backup
- D. ProLiant System ROM backup version

Correct Answer: B

QUESTION 2

A solutions architect is designing an HPE ProLiant BladeSystem and HPE StoreVirtual storage solution for a customer, and needs to estimate power requirements.

Which HPE tool should the architect use?

- A. HPE Insight Management Sizer
- B. HPE OneView
- C. HPE Power Advisor
- D. HPE Power Discovery Services

Correct Answer: C

QUESTION 3

A small business customer is moving to a stack solution and needs an HPE ProLiant server that provides dense storage, good performance, virtualization capability, and easy expansion at a lower price point.

Which HPE ProLiant server should the architect recommend to meet the customer's needs?

- A. DL580 Gen8
- B. DL380p Gen8
- C. DL380 Gen9
- D. DL180 Gen9

Correct Answer: D

QUESTION 4

What is a benefit of using an I/O Accelerator?

- A. increased virtualization performance
- B. optimized for SMB services and workloads
- C. more virtual machines per host server
- D. increased application storage capacity by moving storage closer to the CPU

Correct Answer: A

QUESTION 5

A customer has a VMware vSphere environment with a mix of ProLiant DL G5 servers, ProLiant DL G5 servers, and ProLiant BL Gen9 server blades. The customer plans to replace HPE Insight Control with

HPE OneView as a monitoring platform.

What should the architect explain to the customer?

- A. that HPE OneView does not support G5 and older servers
- B. that HPE Insight Control can be directly updated to the HPE OneView
- C. that HPE Insight Control does not support Gen9 servers
- D. that HPE OneView licenses must be purchased in 50 node bundles

Correct Answer: A
