QUESTION 1

During HPE BladeSystem implementation, you need to update firmware of the Virtual Connect modules installed in this enclosure. This enclosure is not managed by HPE OneView. Which tool can be used to update firmware in VC modules?

A. Onboard Administration

B. Insight Display

C. Virtual Connect Support Utility

D. Virtual Connect Manager

Correct Answer: D

QUESTION 2

A customer has the following requirements:

5TB of local storage to host a 3TB application

iL05 Service Port to download AHS logs and remote console

1x - HPE 400GB SATA 6G Write Intensive SFF (per server)

You propose the following solution:

3x - HPE ProLiant DL380 Gen9

6x - HPE 1TB SATA 6G Midline 7.2 SFF (per server)

What must be changed in your proposal to meet all of the customer requirements?

A. HPE iLO Advanced license

B. HPE ProLiant DL380 Gen10

C. HPE iLO Advanced Premium Security Edition

D. HPE Smart Array SR Secure license

Correct Answer: B

QUESTION 3

A customer has a Gen10 ProLiant server with SATA 6Gb 7.2k based drives in a Raid 5 configuration. They constantly receive internal complaints about slow performance. When they investigate the server, they are regularly discovering failed

drives and write performance response times are near 20ms.

Based on this information, what recommendation should you offer to help with the slow performance and failing drives.

A. Replace HDD with SAS 12GB drives

B. Replace the current controller with an E-class based model.

C. Install MDL disk drives

D. Migrate from Raid 5 to Raid 6.

Correct Answer: A

QUESTION 4

HOTSPOT

A customer has received an alert of a component failure.

Where would the customer be able to confirm which event was logged from the iLO 5 overview screen?

Hot Area:

Correct Answer:

QUESTION 5

Your customer is concerned about the possibility of experiencing a PDos attack on their server infrastructure. Which new HPE ProLiant Gen10 feature can you demonstrate?

A. Commercial National Security Algorithms compliance

B. OpenLDAP support

C. Common Access Card (CAC) two-factor authentication support

D. Silicon Root of Trust

Correct Answer: A
