QUESTION 1

A customer has a branch office that needs a local file server. The branch office does not have a server rack. For backup performance, the server must have two processors. Which HPE server should the company install?

- A. ProLiant ML350 Gen10
- B. ProLiant ML110 Gen9
- C. ProLiant BL460c Gen10
- D. ProLiant DL360 Gen10

Correct Answer: A

QUESTION 2

A customer needs the devices in their non-secure network to communicate in a secure manner. They are considering implementing Kerberos network authentication in their environment. Which impact will this have when using iLO 5 with their HPE ProLiant Gen10 servers?

- A. It will enable two-factor authentication when users log on to iLO.
- B. It will enhance iLO security by leveraging the key stored in the silicon root of trust.
- C. It will allow the servers\' iLO to detect compromised firmware code.
- D. It will enable Zero Sign In to log in to iLO without entering a user name and password.

Correct Answer: D

QUESTION 3

You are installing HPE ProLiant servers into a rack that will be fully loaded. You also need to install four power distribution units (PDUs) in the rack. How should you install the PDUs to maximize power distribution and space efficiency?

- A. at the top of the rack with the cables running between the RETMA rails
- B. horizontally on extension bars mounted directly to the frame for improved clearance
- C. in the bottom bay of the rack with the outlets facing the front
- D. vertically, side by side on both sides of the rack with the outlets facing the center

Correct Answer: D

QUESTION 4

A customer needs to enable HPE Proactive Care and automated case creation for server hardware failures in their OneView environment. Which step do you need to complete in OneView to accomplish these tasks?

- A. Enable remote support from the Settings page.
- B. Apply the OneView Advanced monitoring license.
- C. Add the hosts to the managed devices group.
- D. Configure proactive scan reports.

Correct Answer: A

QUESTION 5

You are designing a network for a customer that needs a centrally-managed solution for their physical and virtual switches. This product must integrate with their existing third-party networking equipment. Which HPE management solution meets the customer's needs?

- A. Centralized Management Console
- B. Intelligent Resilient Framework
- C. Intelligent Management Center
- D. InfoSight

Correct Answer: C
