QUESTION 1

A customer is considering a new multi-tier storage platform. The customer likes the easy management of the Nimble platform. Which question should you ask to choose an appropriate Nimble model?

- A. What is the estimated IOPS required?
- B. Do you require mainframe connectivity?
- C. Do you need to support multiple RAID levels?
- D. Are you using FC or iSCSI host connectivity?

Correct Answer: A

QUESTION 2

In preparation for a customer presentation, you need to be able to propose a solution that estimates power and weight requirements, and appropriate levels of power and cooling. You also need to determine weight-related requirements to install the solution in the data center.

What should you use?

- A. HPE Synergy Planning Tool
- B. HPE Server Memory Configurator
- C. HPE Proposal Web
- D. HPE Power Advisor

Correct Answer: A

"The Synergy Planning Tool is designed to guide proper system configuration, slotting, power and weight information for a Synergy Solution"

QUESTION 3

A customer needs a right-mix strategy and roadmap for hybrid-IT delivery that covers platform, operations, and brokering. Which HPE service should be recommended to meet the customer's requirements?

- A. Professional Services
- B. Advisory and Transformation Services
- C. Operational Services
- D. Proactive Services

Correct Answer: B
