QUESTION 1

A customer needs all users to be authenticated before getting access to the network resources. Which product should you recommend to meet this requirement?

- A. ArubaClearPass
- B. Aruba Central
- C. Aruba Airwave
- D. Aruba Introspect

Correct Answer: A

QUESTION 2

A customer has the following HPE SimpliVity configuration.

1.
4 nodes in 1 cluster - 2 x 16c CPU
2.
384 GB RAM
3.
Medium 4000 storage kit
4.
SFP+ connectivity
5.
VMware hypervisor

The customer needs to increase the available storage capacity in the configuration.

What is the most cost-effective solution that meets your customers needs?

- A. Offload existing backups to an HPE StoreOnce backup target to free up space for production data
- B. Add four "HPE SimpliVity 380 2 Processor Medium to Large Storage Upgrade E-LTU" storage expansion kits.
- C. Add additional disks per node for the required capacity, and do a RAID expansion by using Smart Storage Administrator (SSA).
- D. Add one HPE SimpliVity node with the same configuration to the cluster

Correct Answer: B

QUESTION 3

A customer is considering a hyperconverged solution to consolidate their current virtualization environment. Which question should you ask to determine whether SimpliVity is the correct platform?

- A. Which SAN switches are in your current environment?
- B. How many VMs do you currently run?
- C. What is the storage protocol you currently use to access local drives?
- D. Are you booting hypervisors over PXE?

Correct Answer: B

QUESTION 4

A customer needs to replace an existing Microsoft Hyper-V solution on aging hardware. The customer is interested in an HPE SimpliVity solution. What do you need to consider for this solution?

- A. System Center Virtual Machine Manager licenses
- B. a minimum of four nodes per cluster
- C. SSD-only SimpliVity nodes
- D. Microsoft Windows Server Datacenter licenses

Correct Answer: D

QUESTION 5

A customer is interested in a Synergy solution. They need 100 compute modules and expect the workload to double in two years. They ask for the minimum number of management ports they will need to connect Synergy frames into their management network. How should you reply?

- A. FLMs from all frames connect into a management ring, and the management ring connects into their management network with two uplinks.
- B. FLMs from all frames connect to two external switches, and these two switches connect into their management network.
- C. Synergy solution only allows 15 frames to be interconnected, so growth in customer's workload is not supported.
- D. The RJ-45 ports on the front of each frame are connected to an external switch, which is connected into their management network.

Correct Answer: A
