**QUESTION 1**

Your customer contacts you to optimize their current data protection solution due to changing requirements. The current solution is based on Commvault making backups to HPE StoreOnce appliances with VTL virtual Tape Library. The backup rotation is set to the following schema: Daily backup with a retention of 10 days Weekly backup with a retention of 2 months Monthly backup with a retention of 1 year

Customer requirements changed a week later, stating that the current retention schema should be revised. Implementation of 3-2-1 best practices. Retention of monthly data for 3 years

Is this a possible solution to fulfill all customer requirements? Solution: Create a copy job from the monthly backup data on the HPE StoreOnce appliance towards HPE Cloud Bank storage with a retention of 3 years.

A. Yes

B. No

Correct Answer: B

---

**QUESTION 2**

Your customer wants to replace an aging tape library with a new data protection solution that improves their RTO/RPOs. Their existing platform consists of HPE ProLiant DL380 Gen10 and 8Gb FC connected Nimble Arrays. You recommend an HPE StoreOnce appliance and Veeam software. Is this a true statement? Solution: The new HPE StoreOnce appliances can be Direct-Attached to one or the HPE ProLiant servers

A. Yes

B. No

Correct Answer: A

---

**QUESTION 3**

Your customer deployed Micro Focus Data Protector as the data protection solution for their HPE 3PAR storage infrastructure in combination with HPE StoreOnce appliances. They contact you regarding options to extend data protection towards the cloud. Is this a valid option for your customer? Solution: Micro Focus Data Protector has no native cloud integration and is dependent of the backup target appliance to send data towards solutions like HPE StoreOnce Cloud Bank

A. Yes

B. No

Correct Answer: A

---

**QUESTION 4**

You are optimizing the design of an existing data protection solution. The customer is using the following systems in

their environment HPE DL380 GenS/9/10 servers HPE Nimble AF60 HPE StoreEver MSL6030 tape library with LT04 drives ?HPE FlexFablc 5900 switches for LAN and SAN connectivity (ISCSI based) ?VMware ESXI 6.5 Windows 2016 Veeam9.5U2

You want to replace the aging tape library with a new HPE StoreOnce 5650 solution with VTL virtual tape library and Catalyst targets with HPE Nimble snapshot Integration Is this what you should use to assess current backup deployment? Solution: Use HPE Info Sight to validate that the current HPE Nimble storage array is running the correct Nimble OS version to support storage integration with the used VMware ESXI

A. Yes

B. No

Correct Answer: A

---

#### QUESTION 5

You have a meeting with a customer to discuss a new backup solution requirement. Is this a step in the information gathering process for the current solution? Solution:You launch a NinjaProtected + process to run scripts on the customer\\s backup server to collect all information on the current DacKup configuration. HPE will create a report based on the output of the scripts to create a sizing based on the current workload.

A. Yes

B. No

Correct Answer: A
