**QUESTION 1**

What is the correct power on/off order of the All Flash-Series? (Choose two.)

- A. power off the controller shelf first, then the expansion shelves
- B. power on controller shelf first, then the expansion shelves
- C. power on expansion shelves first, then the controller shelf
- D. power off the expansion shelves first, then the controller shelf

Correct Answer: AC

**QUESTION 2**

DRAG DROP

List in the correct order what the system will do when you promote a downstream replication partner.

Select and Place:

<u>STEPS</u>	<u>ORDER</u>
Begins taking snapshots per defined schedules.	<div style="display: flex; flex-direction: column; align-items: center;"> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> </div>
Brings the most recently replicated snapshots online as volumes (the contents of the newly available volumes now consistent with the last replicated snapshots).	
Clears "Replicate From".	
Creates a second (local) instance of the volume collection and assumes ownership.	
Gives ownership of volumes to the downstream array.	
Suspends the replication relationship associated with the volume collection.	

Correct Answer:

<u>STEPS</u>	<u>ORDER</u>
	<div style="display: flex; flex-direction: column; align-items: center;"> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> </div>

  

<u>STEPS</u>	<u>ORDER</u>
Suspends the replication relationship associated with the volume collection.	<div style="display: flex; flex-direction: column; align-items: center;"> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> <div style="margin-bottom: 10px;">&gt;</div> <div style="margin-bottom: 10px;">&lt;</div> </div>
Gives ownership of volumes to the downstream array.	
Creates a second (local) instance of the volume collection and assumes ownership.	
Clears "Replicate From".	
Brings the most recently replicated snapshots online as volumes (the contents of the newly available volumes now consistent with the last replicated snapshots).	
Begins taking snapshots per defined schedules.	

### QUESTION 3

How is SmartSecure licensed?

- A. free of charge
- B. based on capacity (per 1TB)
- C. per array
- D. per model

Correct Answer: A

---

### QUESTION 4

Which deduplication approach does the AF-Series use?

- A. object-level differencing
- B. post-process deduplication
- C. host-based deduplication
- D. inline deduplication

Correct Answer: D

---

### QUESTION 5

What action must be taken before the expansion shelf can join the storage pool?

- A. Capacity licenses need to be added.
- B. Controller cache needs to be upgraded.
- C. It must be activated.
- D. it must be pre-formatted.

Correct Answer: C
