### QUESTION 1

Your customer has an enclosure with a combination of ProLiant G7, Gen8, and Gen9 servers that are monitored by HPE OneView in a single enclosure. The customer needs to add their new ProLiant Gen9 servers to the enclosure.

Which constraint should you make the customer aware of before they add the Gen9 server?

- A. The Gen9 servers will be restricted to legacy BIOS mode only.
- B. The Gen9 servers are not supported in a mixed enclosure.
- C. The Gen9 servers can only be monitored, and not managed, in this enclosure.
- D. Gen9 server blades are not supported in HPE OneView as managed only devices.

Correct Answer: C

---

### QUESTION 2
