QUESTION 1

When the HPE OneView appliance starts up for the very first time, what is the administrator required to do immediately after logging in for the first time?

- A. Configure the management IP
- B. Add licenses
- C. Change the Administrator password
- D. Create a backup

Correct Answer: B

QUESTION 2

Before applying server profiles to a group of servers, what is the first thing you should check?

- A. The servers are all the same hardware type.
- B. The servers have the correct firmware installed.
- C. The servers are powered down.
- D. The servers are all Synergy compute modules.

Correct Answer: A

QUESTION 3

You assign a server profile to an existing BL Gen 8 server within a managed enclosure with Affinity set to "Device Bay + Server Hardware". What would happen if you replace the server in the enclosure with a new BL Gen 10 server hardware resource?

- A. It will apply the profile if a server with the correct serial number installed.
- B. It will apply the profile if the correct server hardware type is installed.
- C. It will prevent the profile from being applied if a different server is inserted to that bay.
- D. It will prevent the profile if the server is configured with Secure Boot mode in the BIOS.

Correct Answer: D

QUESTION 4

Your customer added some Gen10 servers to an environment managed by HPE OneView. The position of the Gen10 servers in the intelligent racks is not automatically detected. What can cause this problem?

- A. Gen10 servers are mixed with Gen9 or Gen8 servers, which is not supported.
- B. Intelligent Rack is not properly licensed in HPE OneView.
- C. Location sensor is not enabled for Gen10 servers.
- D. Gen10 servers do not support Location Discovery Services.

Correct Answer: D

QUESTION 5

An administrator needs to add multiple BladeSystem c7000 enclosures to a new instance of HPE OneView. The enclosures are currently being monitored by a different instance of HPE OneView. What must the administrator do before beginning importing the enclosure to the new HPE OneView appliance?

- A. Add Frame Link Module.
- B. Edit the Enclosure license to be HPE OneView Advanced.
- C. Add enclosure for management.
- D. Delete the enclosure from the current HPE OneView Appliance.

Correct Answer: A
