QUESTION 1

You are planning to configure ClearPass to send endpoint context to IntroSpect. You need to create a checklist of functions that must be enabled in ClearPass to support this. Is this an option that is required? (Ingress Event Processing.)

- A. Yes
- B. No

Correct Answer: B

QUESTION 2

During a discovery at a large company, the customer asks if they can run IntroSpect on a segment of the network and only monitor a small group of users and servers as a trial. As their IT staff becomes familiar with the analytics, they want to expand the installation to the entire enterprise. Would this be a valid option for the customer? (It is easy to support growth with the Scale-out Analyzer appliance, as Analyzer Nodes may be added over time to support the larger demand from the full environment.)

- A. Yes
- B. No

Correct Answer: B

QUESTION 3

While investigating alerts in the Analyzer you notice a host desktop with a low risk score has been sending regular emails from an internal account to the same external account. Upon investigation you see that the emails all have attachments. Would this be correct assessment of the situation? (This desktop should be added to a watch list and audited for a time to determine if this is real threat activity.)

- A. Yes
- B. No

Correct Answer: A

QUESTION 4

The company has a DMZ with an application server where customers can upload and access their product orders. The security admin wants to know how you configure IntroSpect to monitor this server. Should this be part of your plan? (List the IP subnet of the DMZ as "External" under the Main Menu > Analytics>Global Config>so that alerts for the server will show up as IN-to-OUT traffic.)

- A. Yes
- B. No

Correct Answer: A

QUESTION 5

You are a security analyst for a company where an Aruba infrastructure, such as Controllers, ClearPass, and Airwave, has been deployed. The company has recently deployed Aruba IntroSpect for security analytics. You are trying to understand the functionality of three components: Analyzer, Compute Node (CN), and Packet Processor of the IntroSpect system. Is this a good description of the functions of the Analyzer Node in the system? (The Analyzer Node is the center of the system, providing all of the control and interface to the other components.)

A. Yes

B. No

Correct Answer: B
