Following Questions and Answers are all new published by HP Official Exam Center

QUESTION 1

You were called into a customer site to do an evaluation of installing IntroSpect for a small business. During the discovery process, the customer asks you to explain when they would need to deploy a Packet Processor. Does this explain the function of the Packet Processor? (The packet Processor helps if they are using the analyzer deployed in the cloud by forwarding log data over HTTPS.)

A. Yes

B. No

Correct Answer: B

QUESTION 2

While investigating alerts in the Analyzer you notice a host desktop with a low risk score has been sending regular emails from an internal account to the same external account. Upon investigation you see that the emails all have attachments. Would this be correct assessment of the situation? (The user on this host spends way too much time sending email, but should not be considered a risk until the risk score climbs above 60.)

A. Yes

B. No

Correct Answer: B

QUESTION 3

You are working on an IntroSpect Analyzer to fix an issue, and a restart is required after fixing the issue. Is this the correct procedure to restart? (From the Analyzer Menu navigate to Maintenance ->System>Cluster Start/Stop->Restart Cluster.)

A. Yes

B. No

Correct Answer: B

QUESTION 4

While discussing network security with an associate, the associate asks why a company would need internal monitoring when they have firewalls and Wireless Intrusion Protection configured. Is this an appropriate response? (You point out that while these security measures are required, there are other attack vectors in a network that are simply not protected by these.)

A. Yes

B. No

Correct Answer: A

QUESTION 5

You are planning to configure ClearPass to send endpoint context to IntroSpect. You need to create a checklist of functions that must be enabled in ClearPass to support this. Is this an option that is required? (Time Source Now as part of the authorization in the service.)

A. Yes

B. No

Correct Answer: A
