QUESTION 1

What is a benefit that Aruba Mobility Master (MM) and an ArubaOS architecture bring to network management?

- A. MM provides a centralized licensing repository and a single interface for configuring controllers.
- B. MM offers a single management interface for configuring wireless devices and onboarding user wireless devices.
- C. Customers can obtain a flexible, cloud-based option for managing their controllers centrally.
- D. Admins can manage ArubaOS switches and ArubaOS controllers from the same management interface.

Correct Answer: D

QUESTION 2

You are proposing a Managed Connectivity Services (MCS) solution to a customer. What benefit should you explain that Aruba Services Manager (ASM) provides as part of this solution?

- A. It provides essential support entitlements with a range of flexible options for hardware replacement.
- B. It grants customers visibility into their network infrastructure, speeding up tasks such as threat assessment.
- C. It gives customers a single-pane-of-glass solution for managing contextual access policies for both wired and wireless access.
- D. It enables customers to bundle Aruba support services with support services for integrated third-party tools.

Correct Answer: B

QUESTION 3

Your customer's IT department is under pressure to show a faster time-to-value for network Infrastructure products, such as the campus APs and switches. How can you help the customer address this challenge?

- A. Offer an Aruba Managed Connectivity Services (MCS) solution to let the customer exchange upfront costs for predictable monthly billing and seamless expansions.
- B. Offer Aruba Fabric Composer (AFC) to enable the IT department to deploy the wired and wireless network more quickly and with fewer risks of error.
- C. Offer Aruba Net Edit to help IT to assess vulnerabilities across the wired and wireless network, to automatically mitigate those vulnerabilities and reduce security costs.
- D. Offer Aruba ClearPass Device Insight to enable the IT department to gain visibility into the APs and switches, and demonstrate their business value.

Correct Answer: A

QUESTION 4

Which statement accurately describes a current mobile technology trend?

- A. According to surveys, well over half of smartphone owners keep location services on to receive directions and recommendations.
- B. In customer satisfaction surveys, the majority of mobile users report dissatisfaction with the speeds available on smartphones.
- C. A majority of mobile users hide their device location due to growing concerns over security and personal safety.
- D. Although mobile searchers are rising, website traffic from traditional desktops still significantly outpaces mobile traffic.

Correct Answer: A

QUESTION 5

What is one characteristic of HPE and Aruba Edge-to-Cloud Solutions?

- A. They provide RESTful APIs to make them open to easy integration with other applications.
- B. They use a proprietary approach to technology to ensure that customers deploy HPE and Aruba from end to end.
- C. They are designed for zero touch management in which IT admins do not need to customize any features.
- D. They offer a better ROI when purchased through capital expenditures than when consumed as a service.

Correct Answer: A
