QUESTION 1

An app developer wants a campaign to trigger and send a notification to a device only during certain times of the day. To configure this, where should the developer set the schedule for the campaign?

- A. in the mobile device profile
- B. in the Beacons App
- C. in the Meridian Editor
- D. in the venue app

Correct Answer: C

QUESTION 2

A network engineer is troubleshooting the jumpiness of a blue dot in a location-enabled Meridian-powered app. The network engineer determines that it is located in a reflective physical environment.

Which deployment model will perform better in this environment?

- A. Area
- B. Multipath
- C. Path
- D. Reflective

Correct Answer: C

QUESTION 3

A Meridian-app developer wants to create an AppMaker app for an airport that includes placemarks and amenities on the map. What must the app developer consider?

- A. Placemarks can be seen on the map, but not amenities.
- B. Placemarks should have unique names.
- C. Amenities must have unique names.
- D. Amenities will be searchable, but not placemarks.

Correct Answer: D

QUESTION 4

Where can an app developer configure and reset campaigns?

- A. Campaigns can be configured and reset in the Meridian Editor.
- B. Campaigns can be configured and reset in the Meridian Editor and configured in the Beacons App.
- C. Campaigns can be configured in the Meridian Editor and reset in the Beacon Apps.
- D. Campaigns can be configured and reset in the Beacon Apps.

Correct Answer: C

QUESTION 5

A network engineer uses AppMaker to create a Meridian-powered app. Which items can be created within AppMaker?

- A. beacons placement
- B. proximity beacons
- C. campaigns
- D. analytics
- E. maps and placemarks

Correct Answer: CE
