QUESTION 1

Which must be taken into account if a customer wants to use the DHCP collector with 802.1X authentication?

- A. When a client sends an authentication request to ClearPass, the profiler will also gather DHCP information.
- B. Because DHCP fingerprinting is a Layer-3 function, it cannot be used with an 802.1X authentication service.
- C. The client needs to connect to an open network first to be profiled, then shifted to the secure 802.1x network.
- D. The client needs to be granted limited access before the enforcement policy can take into account the device type.

Correct Answer: A

QUESTION 2

What is a good collector type used for ClearPass to discover devices with static IP addresses?

- A. DHCP Collectors
- B. ClearPass Air Monitors
- C. Active Collectors
- D. Network Functions

Correct Answer: D

Reference: https://www.arubanetworks.com/techdocs/ClearPass/6.7/PolicyManager/Content/CPPM_UserGuide/PolicyProfile/Collectors.htm

QUESTION 3

What are "known" endpoints in ClearPass?

- A. "Known" endpoints have been fingerprinted to determine their operating system and manufacturer.
- B. These are endpoints whose beacons have been detected but have never completed authentication.
- C. The label "Known" indicates rogue endpoints labeled as "friendly" or "ignore".
- D. "Known" endpoints can be authenticated based on MAC address to bypass the captive portal login.

Correct Answer: D

QUESTION 4

What is the benefit of installing a wild card certificate for captive portal authentication?

- A. Wild card certificates provide greater security than normal certificates.
- B. Allows different certificates for each controller for increased security.
- C. Guests no longer are required to validate certificates during captive portal.
- D. Allows the single wild card certificate to be installed on all controllers in the environment.

Correct Answer: D

QUESTION 5

Which authentication method requires a client certificate?

- A. EAP-TLS
- B. Guest self-registration
- C. PEAP
- D. MAC Authentication

Correct Answer: A
