QUESTION 1

Northern Trail Outfitters needs to present shipping costs and estimated delivery times to their customers. Shipping services used vary by region, and have similar but distinct service request parameters. Which integration component capability should be used?

A. Enterprise Service Bus to determine which shipping service to use, and transform requests to the necessary format.

B. Outbound Messaging to request costs and delivery times from Shipper delivery services with automated error retry.

C. APEX REST Service to implement routing logic to the various shipping service.

D. Enterprise Service Bus user interface to collect shipper-specific form data.

Correct Answer: A

QUESTION 2

Northern Trail Outfitters (NTO) uses different shipping services for each of the 34 countries it serves. Services are added and removed frequently to optimize shipping times and costs. Sales Representatives serve all NTO customers globally and need to select between valid service(s) for the customer\\'s country and request shipping estimates from that service.

Which two solutions should an architect propose? Choose 2 answers

A. Use Platform Events to construct and publishshipper-specific events.

B. Invoke middleware service to retrieve valid shipping methods.

C. Use middleware to abstract the call to the specific shipping services.

D. Store shipping services in a picklist that is dependent on a country picklist.

Correct Answer: BC

QUESTION 3

A company wants to standardize exception tracking, handling, and analytics. Given the following actions:

1. Build a company wide logging service hosted on a middleware platform

2. Create case object records for exceptions based thresholds

3. Change all their Apex Loggers to publish Application Exceptions as custom Platform Events.

Which two specifications should the integration architect include in the logging service architecture? Choose 2answers

A. Receive Application Events through Change Data Capture (CDC).

B. Create Salesforce Cases using the Salesforce REST, SOAP or Bulk API.

C. Create Salesforce Cases conditionally using automatic Case creation rules.

D. Subscribe to the Application Exceptions using the Salesforce Streaming API.

Correct Answer: BC

QUESTION 4

Universal Containers (UC) is a large printing company that sells advertisement banners. The company works with third-party agents on banner initial design concepts. The design files are stored in an on-premise file store that can be

accessed by UC internal users and the third party agencies. UC would like to collaborate with the 3rd part agencies on the design files and allow them to be able to view the design files in the community.

The conceptual design files size is 2.5 GB.

Which solution should an integration architect recommend?

A. Create a lightning component with a Request and Reply integration pattern to allow the community users to download the design files.

B. Define an External Data Source and useSalesforce Connect to upload the files to an external object. Link the external object using Indirect lookup.

C. Create a custom object to store the file location URL, when community user clicks on the file URL, redirect the user to the on-prem system file location.

D. Use Salesforce Files to link the files to Salesforce records and display the record and the files in the community.

Correct Answer: B

QUESTION 5

Northern Trail Outfitters (NTO) is looking to integrate three external systems that run nightly data enrichment processes in Salesforce. NTO has both of the following security and strict auditing requirements:

1.

 The external systems must follow the principle of least privilege, and

2.

 The activities of the eternal systems must be available for audit.

What should an Integration Architect recommend as a solution forthese integrations?

A. A shared integration user for the three external system integrations.

B. A shared Connected App for the three external system integrations.

C. A unique integration user for each external system integration.

D. A Connected App for each external system integration.

Correct Answer: D
