### QUESTION 1

Which of the following battery backup units are compatible with the Intel Raid Controller RS3DC080? Please choose your answer from the list below.

- A. AXXRMFBU
- B. AXXRMFBU4
- C. AXXRSBBU9
- D. AXXRSBBU8
- E. AXXRMFBU2

Correct Answer: C

---

### QUESTION 2

You are advising a customer in a data centre on the latest generation of Intel Server systems and products; in particular on GPGPU and you suggest the Intel Xeon Phi Coprocessor. You need to advise on whether there are any special requirements for using Intel Xeon Phi Coprocessor. How would you answer him from the list below? (Select ALL that apply)

- A. The Host OS must be either Windows or Linux
- B. "MMIO above 4GB" option should be enabled in BIOS
- C. There must be adequate power connectors (8pin and 6pin)
- D. The FANs must rotate at not less than 25k RPM
- E. The Host OS can only be a Windows Operating System
- F. The Host OS can only be Linux
- G. It must be the only PCIe device in the system

Correct Answer: AB

---

### QUESTION 3

Your customer wants to build a data center and is looking for space-efficient solutions, which will accommodate HPC infrastructure. As an Intel Server specialist which of the following products would you advise for this, given the need for space-efficiency and onboard high speed interconnects?

- A. Intel Compute Module HNS2600KP
- B. Intel Server Board S2600GZ
- C. Intel Server Board S2600WTT

D. Intel Compute Module HNS2600TPF

Correct Answer: D

---

#### QUESTION 4

A customer wishes to run tests on a server to establish a baseline for the disk subsystem performance. Which of the following tools could help the customer to do this? (Select ALL that apply).

- A. Intel® Active System Console
- B. IOmeter
- C. Intel® Raid Controller Command Line Tool 2 (CMDTool2)
- D. Microsoft Windows Resource Monitor
- E. Intel® Server Event Log (SEL) viewer utility

Correct Answer: BD

---

#### QUESTION 5

The system halts during post at a blank screen with the text "Unrecoverable fatal error found. System will not boot until the error is resolved."

Which of the following is considered as a fatal POST error?

- A. Single drive failure in a RAID 1 set.
- B. PCI out of resource error.
- C. CMOS checksum error.
- D. Processor family mismatch detected.

Correct Answer: D
