Correct Answer: C

### QUESTION 3

Click the Exhibit button.

Given the physical layout of the data center shown in the exhibit, which two statements are correct? (Choose two.)

- A. A single access tier exists for an entire row of servers.
- B. Each rack is managed as a single unit within the data center.
- C. Cable run lengths are minimized.
- D. The layout requires minimal uplinks.

Correct Answer: AB

---

#### QUESTION 4

You want to protect a hypervisor in your data center with a security solution that is installed on the hypervisor and provides firewall protection to applications. Traffic to one of the virtual servers must be subject to a NAT policy before communicating with the virtual server.

Which two solutions would you use to satisfy this requirement? (Choose two.)

- A. vSRX
- B. vQFX
- C. ATP Cloud
- D. cSRX

Correct Answer: AD

---

#### QUESTION 5

You are asked to propose a solution to interconnect two remote data centers over the Internet. The traffic that will be traversing this connection is very sensitive and must be encrypted between the two sites.

In this scenario, which solution should you propose?

- A. MPLS Layer 3 VPN
- B. IPsec VPN
- C. GRE
- D. EVPN

Correct Answer: B
