QUESTION 1

Your finance department asks you to investigate why the carrier invoices have been higher than usual. You notice the shipping fees your customers are paying are much in comparison to what you are paying the carrier. Your solution is to setup volumetric weights on your larger sized products.

How is volumetric weight calculated?

- A. Package length x width x height
- B. Package weight x package volume
- C. Package weight x package volume x product weight
- D. Product volume/package volume

Correct Answer: A

QUESTION 2

A shoe manufacturer Has created a product attribute named "Synthetic Material", its scope is configured to be Store View and its input Type is Yes/no. However, this attribute is not available in the list to create a configurable product.

How do they resolve this problem in the attribute configuration?

- A. Create a new select attribute with the Global scope
- B. Change the scope to be the Website scope
- C. Add two options values yes" and no" to this attribute
- D. Switch the Use in Configurable Product selection to "\\yes\\\\"

Correct Answer: C

QUESTION 3

A merchant is using Magento to manage inventory. The procurement department needs to see which products in the Clotting attribute set have fewer than 50 items in stock while eliminating all unnecessary columns.

How do you do this?

- A. Install a 3rd-party module to provide this report
- B. Enable the Daily Product Inventory Report email feature
- C. Navigate to the Low Stock report and enter the filtering conditions.
- D. Create a new product grid view with the necessary filters and column selections

Correct Answer: B

QUESTION 4

You are building policies for a merchant to ensure PCI compliance website. What two action items do you write in the policy to maintain PCI compliance?

- A. Purge all webserver visitor access logs after 30 days
- B. All critical patches must be applied within 30 days or less of their availability
- C. admin users must have their own login credentials.
- D. Customers must be notified within 72 Hours of a data breach.

Correct Answer: BC

QUESTION 5

You decide to purchase an extension from the Magento Marketplace that fulfills a business requirement and has very good ratings.

It is mandatory no security vulnerabilities are introduced by the extension to keep the merchant and the customer data state.

How do you apply due diligence?

- A. Rely on the Magento Marketplace team, because they do a security check before the extension is published
- B. Trust the community engineering team, because they support Magento merchants.
- C. Check the extension vendor, because they have to supply secure extensions
- D. Have your developer review the extension, because issue and could have been missed by other reviewers.

Correct Answer: A
