QUESTION 1

A merchant has two websites, one for the US and one for the EU.

The US website is available in English and Spanish and the EU website is available in English, Spanish

and German.

Maintaining the Spanish product localizations twice is causing a lot of duplicate work for the merchant.

What do you recommend?

A. Create a customization that automatically copies all content from the US Spanish store view to the EU Spanish store view scope.

B. Use Spanish as the default scope localization instead of English.

C. Use an integration with a product information management system to manage the localizations.

D. Set up Magento so both websites share the Spanish store view

Correct Answer: C

QUESTION 2
