### QUESTION 1

A company implements Dynamics 365 Finance.

You need to schedule a recurring general journal import.

What should you use?

- A. Data integrator
- B. Common Data Service
- C. Microsoft Excel add-in
- D. Data Import Export Framework
- E. Dual-write

Correct Answer: D

---

### QUESTION 2

Over the years your company has acquired a vast number of partnerships. The partnership information is currently saved in a legacy system.

You export the partnership information to Microsoft Word format and generate Partnership and PartnershipGroup entities.

You are now preparing to import the partnership information into Dynamics 365 for Finance.

To achieve your goal, you need to convert the word files into a different format.

Which of the following is the format that the word files should be converted to?

- A. ODT
- B. CSV
- C. RTF
- D. HTML

Correct Answer: B

---

### QUESTION 3

DRAG DROP

A company implements Dynamics 365 Finance. The company wants to automate some standard business practices

and processes into the system.

A sales representative calls on a new customer and obtains an order. As part of the process, the representative must follow the standard procedure for onboarding a new customer by uploading the customer's credit application to the company OneDrive for processing, create the new customer record, set a default minimum credit limit, and enter the new order using the company's streamlined new-customer form.

After the credit application is approved by the finance manager, and the customer's credit limit is updated in the system, the order will be released for fulfillment.

You need to determine which tool or functionality best fits the scenario.

Which feature or functionality should you use? To answer, drag the appropriate setting to the correct drop targets. Each source may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Features or functionalities	Scenario	Feature or functionality
Business process flow	Guide the salesperson through creating the new customer record and order.	
Workflow	Notify the finance manager of a new credit application by using email.	
Microsoft Flow	Automatically update the order status when the credit limit is updated.	
Task Guide		

Correct Answer:

Features or functionalities	Scenario	Feature or functionality
Business process flow	Guide the salesperson through creating the new customer record and order.	Task Guide
	Notify the finance manager of a new credit application by using email.	Microsoft Flow
	Automatically update the order status when the credit limit is updated.	Workflow

#### QUESTION 4

A company implements Dynamics 365 Finance.

The implementation team must build acceptance scripts to make sure that common business use cases can be performed in the new system. They must test use cases by stepping through required tasks, organized by functional hierarchy.

You need to create User Acceptance Testing (UAT) tests in Lifecycle Services (LCS) that can be easily repeatable.

What should you use?

- A. Task recorder
- B. APQC Unified Library
- C. Asset library
- D. Configuration data manager

Correct Answer: A
