## QUESTION 1

### SIMULATION

You are a functional consultant for a company named Contoso Entertainment System USA (USMF).

You plan to trade a product named Professional Speaker Cable in the color gray.

You need to release all the available variants of Professional Speaker Cable in gray.

To complete this task, sign in to Dynamics 365 portal.

Correct Answer: See explanation below.

1.

Click Product information management > Common > Products > Product masters.

2.

Select a product master, and then click Release products in the Product authorization group on the Action Pane.

3.

Select all product variants in the Product variants group for the color gray.

4.

Leave the defaults on the Select companies link.

5.

Click OK to open the Product release session batch dialog box.

6.

Select the Show Infolog upon failure check box to be notified if the release is not completed.

7.

If the product master of the variants has not already been released to the company, select the Include product master check box.

## QUESTION 2

### SIMULATION

You are a functional consultant for a company named Contoso Entertainment System USA (USMF).

You need to configure a new quality process for item number M0017. The process must meet the following requirements:

1.  
Perform an impedance test on 100 percent of the units purchased.
2.  
Initiate the test after the product receipt is posted.  
To complete this task, sign in to Dynamics 365 portal.  
Correct Answer: See explanation below.  
Configure Item Sampling to specify 100 percent of the units.  
Configure Quality Association to specify what test to run and configure the test to run after the receipt is posted.  
Configure Item Sampling.

1.  
Go to Inventory management > Setup > Quality control > Item sampling.

2.  
Click New.

3.  
In the Item sampling field, type the name 100%.

4.  
In the Description field, type a value (100%).

5.  
In the Quantity specification field, select percent.

6.  
In the Value field, enter a number (100)

7.  
Click Save.

8.  
Close the page.

Configure a Quality Association

- 1.

Go to Inventory management > Setup > Quality control > Quality associations.

2.

Click New.

3.

In the Reference type field, select Purchase.

4.

In the Item code field, select Table.

5.

In the Item field, select the item M0017.

6.

In the Event type field, select Product Receipt.

7.

In the Execution field, select After.

8.

Expand or collapse the Specifications section.

9.

In the Test group field, find and select the Impedance test.

10. Click Save.

11. Close the page.

### QUESTION 3

A company uses Dynamics 365 Supply Chain Management in one legal entity that contains one site, which contains Warehouse1 and Warehouse2. A customer routinely orders an item that the company usually stocks in Warehouse1.

The customer requires the company to ship orders from Warehouse2 due to shipping cost agreements.

You need to configure the system to meet the request.

Which configuration should you set up?

A. Set the item default order settings to Warehouse1 only.

B. Set the customer default to Warehouse1 and set the item default order settings to Warehouse2.

- C. Set the customer default to Warehouse2 and the item default order settings to Warehouse!
- D. Set the customer default to Warehouse1 and set the item default order settings to Warehouse1
- E. Set the customer default to Warehouse2 only.

Correct Answer: C

Default order settings in Dynamics 365 Supply Chain Management define the site and warehouse where items will be sourced from or stored, the minimum, maximum, multiple and standard quantities that will be used for trading or inventory management, the lead times, the stop flag, and the order promising method. Default order settings are used when creating purchase orders, sales orders, transfer orders, inventory journals, and by master planning for generating planned orders. Default order settings can be item specific, site specific, product variant specific, or product dimension specific.

#### QUESTION 4

Your company makes use of a Dynamics 365 Supply Chain Management system.

You are tasked with amending inventory. Additionally, the existing item posting configuration must be overridden.

You make use of the inventory adjustment journal.

Does the action achieve your objective?

- A. Yes, it does
- B. No, it does not

Correct Answer: B

#### QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A vendor is offering a rebate program on bottles of wine that have purchase orders placed within a month. There is a \$5.00 rebate on the purchase of 10-100 bottles and a \$6.00 rebate for the purchase of 101-200 bottles. Customers can

purchase wine by the bottle or by the case. Discounts apply to all varieties of wine sold by the vendor.

You need to create a vendor rebate agreement to ensure that the correct rebate amount is claimed at the end of the month.

Solution: On the rebate agreement, specify each item group assigned to wine. Add a rebate line break of quantity 10-100 and a second rebate line break of quantity 101-200.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B
