QUESTION 1

You are adding a new field to the SalesTable form.

You must use an extension to add a status field onto the form.

You need to create the extension in the Application Object Tree (AOT) and add the extension to the demo Extensions model.

Solution: Navigate to the user interface forms node for the SalesTable form and modify the form.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

QUESTION 2

DRAG DROP

A company uses Dynamics 365 Finance. The company is implementing an independent software vendor (ISV) solution.

You overlay the ISV code to add functionality to the solution.

You need to configure code compare options.

Which code compare option should you use? To answer, drag the appropriate code compare options to the correct scenarios. Each code compare option may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Code compare options	Answer Area	
Compare and merge code	**Scenario**	**Code compare option**
Compare code with baseline	Compare the custom code with the code in the ISV solution.	
Compare metadata with baseline	Compare the code with the code in the ISV solution to identify and resolve conflicts.	
	Compare elements of a form with those in the ISV solution.	

Correct Answer:

Code compare options

Compare and merge code

Compare code with baseline

Compare metadata with baseline

Answer Area

Scenario	Code compare option
Compare the custom code with the code in the ISV solution.	Compare code with baseline
Compare the code with the code in the ISV solution to identify and resolve conflicts.	Compare code with baseline
Compare elements of a form with those in the ISV solution.	Compare metadata with baseline

QUESTION 3

HOTSPOT

You are a Dynamics 365 Finance developer.

You need to add a new status named InTransit to the SalesTable.SalesStatus field and use the status in code.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement	Action or code segment
Add the new status to SalesStatus.	▼
	Create an extension of SalesStatus.
	Create an overlay of SalesStatus.
	Create a new enumeration that extends SalesStatus.
	Duplicate SalesStatus and add an element.
Reference new values in code.	▼
	SalesStatus::InTransit
	SalesStatus.Extension::InTransit
	NewSalesStatus:InTransit
	SalesTable.SalesStatus

Correct Answer:

Answer Area

Requirement	Action or code segment
Add the new status to SalesStatus.	▼
	Create an extension of SalesStatus.
	Create an overlay of SalesStatus.
	Create a new enumeration that extends SalesStatus.
	Duplicate SalesStatus and add an element.
Reference new values in code.	▼
	SalesStatus::InTransit
	SalesStatus.Extension::InTransit
	NewSalesStatus:InTransit
	SalesTable.SalesStatus

Box 1: Create an extension of SalesStatus

To modify properties on an existing field in a table, you must first create an extension for the table.

Box 2: SalesStatus::InTransit

Incorrect Answers:

Overlay: Overlaying code, the now-outdated way to implement customer-specific functionality under Dynamics AX, involved customizing programming within Microsoft\'s code and recompiling the application.

QUESTION 4

You are Dynamics 365 Finance developer.

You need to initialize an embedded Microsoft Power BI report.

Which code segment should you add to the form initialization method?

A. addReportControl(formGroupControl)

B. initializeReportControl(WorkspaceName, FormGroup)

C. initializeReportControlOnWorkspace(powerBIConfiguration, reportParameters, formGroupControl)

D. deployOrUpdateReport(powerBIConfiguration, reportName, resourceName)

Correct Answer: B

PBIReportHelper.initializeReportControl method is used to embed a Power BI report (.pbix resource) in a form group control.

PBIReportHelper::initializeReportControl(\\'FMPBIWorkspaces\\', powerBIReportGroup);

QUESTION 5

DRAG DROP

A company implements Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

Customers place orders from the company website store or through sales representatives.

You create a Power Platform app to manage sales quotes for sales representatives who do not have direct access to the Finance and Supply Chain Management environment. The app must meet the following requirements:

1.

Sales representatives must be able to create new customers.

2.

Ensure that only approved products can be sold.

3.

Be available when the sales representatives do not have internet access.

Web sales are imported nightly.

You need to determine a strategy to integrate apps.

What should you use? To answer, drag the appropriate options to the correct app features. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Options

Dual-write
Virtual entity
Composite entity

Answer Area

App feature	Option
New customers	Option
Approved products	Option
Web orders	Option

Correct Answer:

Options

Answer Area

App feature	Option
New customers	Virtual entity
Approved products	Composite entity
Web orders	Dual-write
