### QUESTION 2

A company implements Dynamics 365 Finance.

The company must view data from Dynamics 365 Finance in an Excel document

The data must refresh every time a user opens the Excel file.

You need to identify the feature the user should use to open the Excel document.

Which feature should you recommend?

- A. List Page
- B. SQL Server Reporting Services (SSRS) report
- C. Mobile workspace
- D. Workspace

Correct Answer: D

The term workspace refers to a group of workbooks including their exact screen position and window size. Enables you to have multiple workbooks showing simultaneously and to have a customised view of those workbooks arranged in different windows.

A workspace contains pointers to your other Excel files that you had open during your session.

When you open an Excel workspace all the other files are opened as well

Workspaces are particularly useful if you frequently work with the same set of files and need to have them all open at once.
