QUESTION 1

HOTSPOT

A company uses Dynamics 365 Supply Chain Management. You are performing regression testing using the Regression suite automation tool (RSAT). You observe that invoice totals for some sales orders are lower than expected.

You need to ensure that the invoice totals are correct.

What should you do? To answer, drag the appropriate actions to the correct scenarios. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Hot Area:

The screenshot shows two hotspots for matching requirements to actions. The first requirement is "Track maintenance on mining machines and equipment." and the second is "Capture costs for each of the mine locations for capitalization opportunities." Below each requirement is a list of actions to be dragged.

Requirement
Track maintenance on mining machines and equipment.

- Asset Management
- Asset Management
- Fixed Assets
- Field Service

Capture costs for each of the mine locations for capitalization opportunities.

- Fixed Assets
- Project Management and Accounting
- Fixed Assets
- Inventory dimension site

Correct Answer:

Requirement

Track maintenance on mining machines and equipment.

Asset Management	▼
Asset Management	
Fixed Assets	
Field Service	

Capture costs for each of the mine locations for capitalization opportunities.

Fixed Assets	▼
Project Management and Accounting	
Fixed Assets	
Inventory dimension site	

1.
Asset Management
2.
Fixed Assets

QUESTION 2

A company is implementing Dynamics 365 Finance. The company is in the FastTrack program.

User experience is a high priority for this implementation. The company wants to design the solution for ease of use, aesthetics, and consistency of experience.

You need to determine in which session user experiences are designed.

What is the appropriate session?

- A. Project kickoff meeting
- B. Implementation workshop
- C. Go-live Readiness workshop
- D. Solution Blueprint Review workshop

Correct Answer: B

The Implementation workshops includes User experience design:

Identify key goals and design elements the customer is leveraging to deliver an optimal user experience.

Agenda topics:

Ease of use -legacy system mapping Ease of use -simplicity/efficiency Aesthetics -ISV alignment Aesthetics -corporate branding Performance -speed

Consistency of experience Mandatory attendees are solution architects, functional leads, and technical leads.
Recommended attendees include stakeholders from the customer and partner team

QUESTION 3

A company plans to implement Dynamics 365 Finance Operations (on-premises).

The company has system compliance requirements that must be addressed. You need to design the solution for the company. What should you address in the design?

- A. job-protected family and medical leave
- B. workers' compensation
- C. employee retirement
- D. data privacy

Correct Answer: D

QUESTION 4

DRAG DROP

A client wants to create a custom view-only security role that allows users to view the customer list in the accounts receivable module. It must be accurately reported during a security audit.

You need to recommend how to implement the privileges.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Add the **CustCustomerMasterInquire** duty to the **ReadOnlyUserAR** role.

Create a new security role named **ReadOnlyUserAR**.

Add the **Customers** privilege to the **CustCustomerMasterInquire** duty.

Add the custom role **ReadOnlyUserAR** to users.

Create a custom duty named **CustomerViewList**.

Add the **Customers** privilege to the **CustomerViewList** duty.

Add the **CustomerViewList** duty to the **ReadOnlyUserAR** role.

Answer area

Correct Answer:

Actions

Add the **CustCustomerMasterInquire** duty to the **ReadOnlyUserAR** role.

Add the **Customers** privilege to the **CustCustomerMasterInquire** duty.

Answer area

Create a new security role named **ReadOnlyUserAR**.

Create a custom duty named **CustomerViewList**.

Add the **Customers** privilege to the **CustomerViewList** duty.

Add the **CustomerViewList** duty to the **ReadOnlyUserAR** role.

Add the custom role **ReadOnlyUserAR** to users.
