QUESTION 2

A company is implementing Dynamics 365 Finance. The company plans to use Business process modeler (BPM) tool to align their business processes with industry-standard processes.

You need to help the company get started using BPM.

Which prerequisite should the company install?

A. Business events catalog

B. Asset library

C. American Productivity and Quality Center (APQC) membership

D. Azure DevOps project

Correct Answer: D

Business process modeler (BPM) in Lifecycle Services (LCS), prerequisites To effectively use BPM, you must have Microsoft Office 2010 and a Microsoft Azure DevOps project. Reference: https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/lifecycle-services/bpm-overview

---

QUESTION 3

A company uses a third-party enterprise resource management tool. The company plans to implement Dynamics 365 Finance.

You need to recommend a tool that reduces the learning curve for employees.

Which tool should you recommend?

A. Microsoft Azure DevOps

B. Task Recorder

C. Regression suite automation tool

D. Lifecycle Services

Correct Answer: D

Lifecycle Services (LCS) for Microsoft Dynamics is a collaboration portal that provides an environment and a set of regularly updated services that can help you manage the application lifecycle of your implementations of Finance and Operations apps.

QUESTION 4

You need to create a plan that meets the following requirements:

1.

Migrate the data to the new system.

2.

Implement a standardized method for creating items.

3.

Prevent items from being created in different ways going forward.

Which two actions should you recommend? Each correct answer presents a complete answer.

NOTE: Each correct selection is worth one point.

A. Migrate item data in the cutover plan after the annual updates of items

B. Suggest creating a Power BI report to identify like-items after migration.

C. Migrate items in the cutover plan before the annual update of items.

D. Suggest a Master Data Management team who standardizes the item master.

E. Migrate existing items as-is.

Correct Answer: BD

QUESTION 5

A distribution company plans to implement Dynamics 365 Supply Chain Management.

The company wants to understand how licensing works for users and devices.

You need to recommend licensing solutions to the company.

What should you recommend?

A. Assign either a device license or a user license for the device.

B. Assign a device license to a user.

C. Assign a user to the device.

D. Assign both a device license and a user license to the device.

Correct Answer: A

Dynamics 365 Licensing Overview

Dynamics 365 applications are licensed by subscription in two broad categories:

?Assigned licenses, which include:

o User licenses, which grant access for a named user, regardless of the device used. For

products that offer licenses for both enterprise and professional levels of functionality (such as Sales and Customer Service), user licenses may be referred to as Enterprise licenses or Professional licenses. Note, however, that an

organization may not install both versions in the

same environment.

o Device licenses, which grant access via certain devices, using either assigned or shared logins.

?Unassigned licenses that provide access to a feature or service at the tenant level, regardless of the user or device involved.
