Answer Area

Requirement	Approach
Ensure that UI changes made are applicable only at the user level.	Personalize
UI changes must apply to all users in the environment and any extensions produced by the user.	Design
UI changes must apply only to the Role Center to which they are specified.	Customize

Box 1: Personalize

You can personalize your workspace to suit your work and preferences by changing pages so that they display only the information you need, where you need it. The personalization changes that you make will only affect what you see, not

what other users see.

Box 2: Design

Box 3: Customization

A Page Customization object should always be linked to a profile before the customization will be applied. A Profile object in Business Central allows you to build an individual experience for each user profile. When you create a new profile,

you have to specify which Role Center page this profile uses, and which page customizations are linked to the profile.
