QUESTION 1

For the account entity, you need a form that can be opened by sales users only. You save a copy of the main contact form and you name the copy Sales form. What should you do next?

- A. Create a business rule.
- B. Add a web resource.
- C. Modify the Form Properties.
- D. Enable security roles.

Correct Answer: D

QUESTION 2

The account of a user named User1 is assigned three security roles. The security roles are defined as shown in the following tables.

Base role			
Entity	Read	Write	Delete
Account	Organization	User	None
Opportunity	None	None	None

Sales role			
Entity	Read	Write	Delete
Account	User	Business Unit	User
Opportunity	Business Unit	User	None

Marketing role			
Entity	Read	Write	Delete
Account	Business Unit	None	None
Opportunity	Organization	None	None

You need to identify which permissions to the account entity are assigned to User1. What should you identify?

- A.

Correct Answer: E

QUESTION 3

You have a Dynamics CRM development environment and a Dynamics CRM production environment. In both environments, your account is assigned the System Customizer security role.

In the development environment, you create a custom solution that contains all of the project components deployed to the production environment. The custom solution contains an entity.

In the development environment, you open the project solution that you intend to deploy to the production environment.

You see the entity, but not the field.

You need to ensure that you can modify the field in the development environment.

What should you do?

- A. Ask the system administrator to assign your user the System Administrator security role, and then modify the system field.
- B. In the project solution, add a field to the entity, and then make the modification.
- C. In the default solution, make the modification.
- D. Use the Add Sub Components action, add the field, and then make the modification.

Correct Answer: C

QUESTION 4

A user attempts to import data to Dynamics CRM, but all of the records fail to import because of a business rule that you created.

You need to ensure that the user can import the records successfully.

What should the user do?

- A. Change the scope of the business rule to Entity. Instruct the user to import the data again.
- B. Add an action to the business rule to hide the field. Instruct the user to import the data again.
- C. Run the import by using the System Administrator account
- D. Change the scope of the business rule to All Forms. Instruct the user to import the data again.

Correct Answer: D

QUESTION 5

You create a vehicle entity to track the vehicles owned by a contact.

You create a one-to-many (1:N) relationship from the contact to the vehicle. You need to ensure that the vehicle records are deleted What should you do?

- A. Set the relationship behavior for the delete action to deleted.
- B. Set the relationship behavior for the delete action to Remove Link.
- C. Set the relationship behavior for the delete action to Cascade All
- D. Set the Type of Behavior for the relationship to Referential, Restrict Delete.
- E. Set the Type of Behavior for the relationship to Referential

Correct Answer: C
