QUESTION 1

You need to override the profit and loss account to which the physical inventory is posted in the general ledger. Which type of inventory journal should you use?

- A. Movement
- B. Inventory adjustment
- C. Transfer
- D. Profit and loss

Correct Answer: B

The Inventory adjustment or Profit/Loss journal is generally used to write-off inventory or to make standard adjustments. It is an inventory adjustment journal for items lost, broken, or just found where item value and quantity must be updated to keep inventory accuracy. This kind of journal automatically applies financial transactions to preset accounts for profit and loss. This journal was known as Profit and Loss journal in earlier versions of AX prior to AX 2012.

QUESTION 2

You have a customer who orders the same products frequently. You need to simplify the creation of sales orders for the customer. What should you use?

- A. A direct delivery order
- B. An item list
- C. A new item
- D. A blanket order

Correct Answer: B

An item list is a list of items that a customer habitually buys, including quantities. When you create a new sales order for a customer, instead of adding items line by line, you can select the item list that has been created for the customer.

Incorrect:

not A: You can also create a direct delivery order if you want your vendor to deliver the goods to the customer.

QUESTION 3

You are setting up a new product.

Which of the following three fields are required to finalize the released product? Each correct answer presents part of the solution.

- A. Product category

- B. Item group
- C. Item sales tax group
- D. Storage Dimension group
- E. Item model group

Correct Answer: BDE

In the Released products form

In the Released product details form, in the General Fast Tab , you will find 'Item Model Group\\' Field From the drop down menu, select an item model group. In the same form , in 'Manage costs\\' tab posting, field you will find 'Item Groups\\'

Field.

The screenshot displays the 'Released product details' form for product 'pen-01_m'. The 'General' tab is selected, showing fields for Identification (Item number, Product), Further identification (Product name, Search name, Description), Product variants (Configuration technology, Allow identical configurations, Generate variants automatically, Product model group), Administration (Default product variant, Product dimension group, Storage dimension group, Tracking dimension group, Item model group), and Product image. The 'Item model group' field is highlighted with a red box. The 'Manage costs' tab is also visible at the bottom, showing a table for Posting with columns for Item group, Unit, Price, and Price unit.

QUESTION 4

You need to identify during which status update the inventory of quarantined orders is returned to its original location.

Which status update should you identify?

- A. Reported as finished
- B. Ended
- C. Released
- D. Received

Correct Answer: B

*

Ended status

When a quarantine order that was reported as finished is ended, the item is moved from the quarantine warehouse back to the regular warehouse. The status of the item transaction is set to Sold at the quarantine warehouse and Purchased at the regular warehouse.

*

Quarantine orders can have the following statuses: Created Started Reported as finished Ended

Incorrect:

not A: Reported as finished status

By clicking Report as finished, you can report a started quarantine order as finished. The item is released from quarantine but is not yet moved back to the regular warehouse.
