QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has two offices.

The network contains an Active Directory forest. The forest contains two domains. Each office is configured as an Active Directory site.

You need to recommend a plan for the deployment of Microsoft Exchange Server 2019 servers. The plan must ensure that a copy of each sent email message is always retained in a shadow queue.

Solution: You recommend deploying two standalone servers. Each server will be in a different site.

Both servers will be in the same domain.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

References: <https://docs.microsoft.com/en-us/exchange/mail-flow/transport-high-availability/shadow-redundancy?view=exchserver-2019>

QUESTION 2

You have a Microsoft 365 subscription.

You need to receive a weekly report that shows the number of inbound email messages containing spam and the number of inbound email messages containing malware.

Which report from the Security and Compliance admin center should you use?

- A. Spam Detections
- B. top 5 labels
- C. Spoof detections
- D. Sent and received email

Correct Answer: D

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/view-email-security-reports#sent-and-receivedemail-report>

QUESTION 3

You have a Microsoft 365 subscription that uses a default domain named contoso.com.

Users report that email messages from a domain named fabrikam.com are identified as spam even though the messages are legitimate.

You need to prevent messages from fabrikam.com from being identified as spam.

What should you do?

- A. Edit the default mail flow rule to bypass the spam filter.
- B. Create a new remote domain.
- C. Edit a spam filter policy.
- D. Create a new malware filter policy.

Correct Answer: C

QUESTION 4

You have a Microsoft 365 subscription for a company named Fabrikam, Inc. The company uses an Exchange Online tenant that has an email domain named fabrikam.com.

Fabrikam works with a partner company Contoso, Ltd. that uses an email domain named contoso.com.

A new security policy at Contoso states that any email sent from partners to Contoso employees must use TLS encryption.

You need to ensure that email sent from Fabrikam to Contoso uses TLS.

What should you create in the tenant?

- A. a new connector that specifies the contoso.com SMTP domain
- B. a remote domain named contoso.com
- C. a new connector that specifies the fabrikam.com SMTP domain
- D. a remote domain named fabrikam.com

Correct Answer: A

Configure a Send connector in Fabrikam to point to Contoso.

**QUESTION 5**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these Questions will not appear in the review screen.

Your company has a Microsoft Exchange Server 2019 server named EX01. EX01 has the default Receive connectors. EX01 receives Internet email on port 25 from an appliance in the company's perimeter network.

The company has an application named App1 that can only send email on port 25. The application administrator requests that you enable App1 to route email through EX01 for delivery.

You need to ensure that EX01 only accepts email from the appliance and App1.

Solution: You create a new remote domain and set the domain name to App1. You create a new delivery agent connector and set the IsScopedConnector property to \$true.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B
