QUESTION 1

What causes a host\\'s state to change to "at risk"?

A. The host has been administratively disabled.

B. The logged on user is not found in the Active Directory.

C. The host has failed an endpoint compliance policy or admin scan.

D. The host is not in the Registered Hosts group.

Correct Answer: C

Failure ?Indicates that the host has failed the scan. This option can also be set manually. When the status is set to Failure the host is marked";At Ris"; for the selected scan.
