### QUESTION 1

Under what circumstances would you want to use the temporary uncompress feature of FortiWeb?

- A. In the case of compression being done on the FortiWeb, to inspect the content of the compressed file
- B. In the case of the file being a .MP3 music file
- C. In the case of compression being done on the web server, to inspect the content of the compressed file.
- D. In the case of the file being an .MP4 video

Correct Answer: C

---

### QUESTION 2

Which two statements about running a vulnerability scan are true? (Choose two.)

- A. You should run the vulnerability scan during a maintenance window.
- B. You should run the vulnerability scan in a test environment.
- C. Vulnerability scanning increases the load on FortiWeb, so it should be avoided.
- D. You should run the vulnerability scan on a live website to get accurate results.

Correct Answer: AB

Should the Vulnerability Scanner allow it, SVMS will set the scan schedule (or schedules) to run in a maintenance window. SVMS will advise Client of the scanner's ability to complete the scan(s) within the maintenance window. Vulnerabilities on live web sites. Instead, duplicate the web site and its database in a test environment.
