20Manager/1200_install_to%20devices/0400_Install% 20wizard-device%20settings.htm There are 4 main wizards: Add
Device: is used to add devices to central management and import their configurations. Install: is used to install
configuration changes from Device Manager or Policies and Objects to the managed devices. It allows you to preview
the changes and, if the administrator doesn\\'t agree with the changes, cancel and modify them. Import policy: is used to
import interface mapping, policy database, and objects associated with the managed devices into a policy package
under the Policy and Object tab. It runs with the Add Device wizard by default and may be run at any time from the
managed device list. Re-install policy: is used to perform a quick install of the policy package. It doesn\\'t give the ability
to preview the changes that will be installed to the managed device.
