QUESTION 1

The ACDOCA table has a 6-digit field for document line numbers. However, CO documents updating the COEP table are still limited to 999 lines. How does SAP S/4HANA handle large line item numbers when updating the Co documents?

Response:

A. It outputs an error message when there are more than 999 lines.

B. It creates a new document when there are more than 999.999 lines

C. It no longer assigns CO-specific document numbers.

D. It creates a new document when there are more than 999 lines.

Correct Answer: D

QUESTION 2

What are planning level and planning group used for in SAP Cash Management?

Note: There are 2 correct answers to this question.

Response:

A. - Planning level is used to differentiate between strategic, business, and operational plan.

-Planning group is used to group assets by order of liquidity: petty cash, bank, AR/AP, investments,

etc.

B. - Planning group is used to group customers and vendors to enable accurate forecast.

-Planning level is used to control displays in SAP Cash Management and to differentiate between noted item, purchase order, bank account, etc.

C. - Planning level is used in the company code data of the business partner to control accounts receivable and accounts payable in SAP Cash Management.

-Planning group is used in the G/L account data to enable the liquidity forecast.

D. Planning level and planning group are used in the configuration of the grouping structure, which enables you to group bank and subledger accounts together in the cash position or the liquidity forecast.

Correct Answer: BD

QUESTION 3

Why is it necessary to migrate balances for FI and CO?

Please choose the correct answer.

Response:

A. Because the system posts FI/CO documents for all missing line items by comparing them to the balance of the account

B. Because the system displays an error if the sum of aggregated line items differs from the balance

C. Because all balances from the past years are stored in the universal journal

D. Because a delta between all line items and the balance of every account will be updated in the universal journal

Correct Answer: D

QUESTION 4

You extend the coding block in the universal journal with a custom field. Which components can use this

new field without requiring further customization?

Note: There are 2 correct answers to this question.

Response:

A. Classic profit center accounting.

B. General ledger accounting

C. Account-based CO-PA

D. Costing-based CO-PA

Correct Answer: BD

QUESTION 5

How does the Near-Zero Downtime method minimize the downtime of the productive SAP system during migration?

Response:

A. The data from previous years is archived.

B. SQL database commands are used to accelerate the migration

C. A clone of the productive system is used.

D. Optimized data compression is used to minimize the data volume.

Correct Answer: C
