- A. Work-
- B. MyCo-FW-HRApp-Work
- C. MyCo-FW-HRApp-Work-EnrollBenefits
- D. MyCo-FW-Work

Correct Answer: C

---

#### QUESTION 2

What defines a reusable class structure that can be extended for specific implementations? (Choose One)

- A. Framework layer
- B. Class group
- C. Implementation layer
- D. RuleSet stack

Correct Answer: A

---

#### QUESTION 3

When implementing a case type, the best course of action is to:

- A. Implement processes, then associate them with steps, and then identify stages
- B. Identify stages, then identify steps, and then implement processes
- C. Identify processes, then implement stages, and then add steps
- D. Implement stages, then identify steps, and then implement processes

Correct Answer: D

---

#### QUESTION 4

From the following choices, select three statements that are true about a framework layer. (Choose Three)

- A. The framework layer is a reusable application that can be used as the basis for a specific implementation
- B. A framework layer may be built upon another framework layer

- C. A framework layer can support only one implementation layer
- D. Rules applied to a class in the framework layer can be called from the implementation layer
- E. During rule resolution, PRPC assembles one rule cache for the framework layer, and another rule cache for the implementation layer
- F. The framework layer may only consist of abstract classes

Correct Answer: ABD

---

#### QUESTION 5

Which statement is true about pattern inheritance? (Choose One)

- A. It only applies to work classes
- B. It causes a class to inherit rules from parent classes, matching its prefix to the parent class name
- C. It is executed after directed inheritance
- D. It makes it possible to define the parent explicitly, rather than by name

Correct Answer: B
