---

### QUESTION 3

On an Account Management form, you need to add a link control for changing the mailing address. When users click the link, the application runs a ChangeAddress flow in a modal dialog. How do you implement this requirement?

- A. Configure the edit mode of the link to display the flow UI in a modal dialog.
- B. Configure an action set on the link to launch the flow in a modal dialog.
- C. Configure a visible when condition on the link to display the flow in a modal dialog.
- D. Configure the flow to render its UI in a modal dialog instead of a section.

Correct Answer: B

---

### QUESTION 4

Match each development task to the appropriate role.

Select and Place:

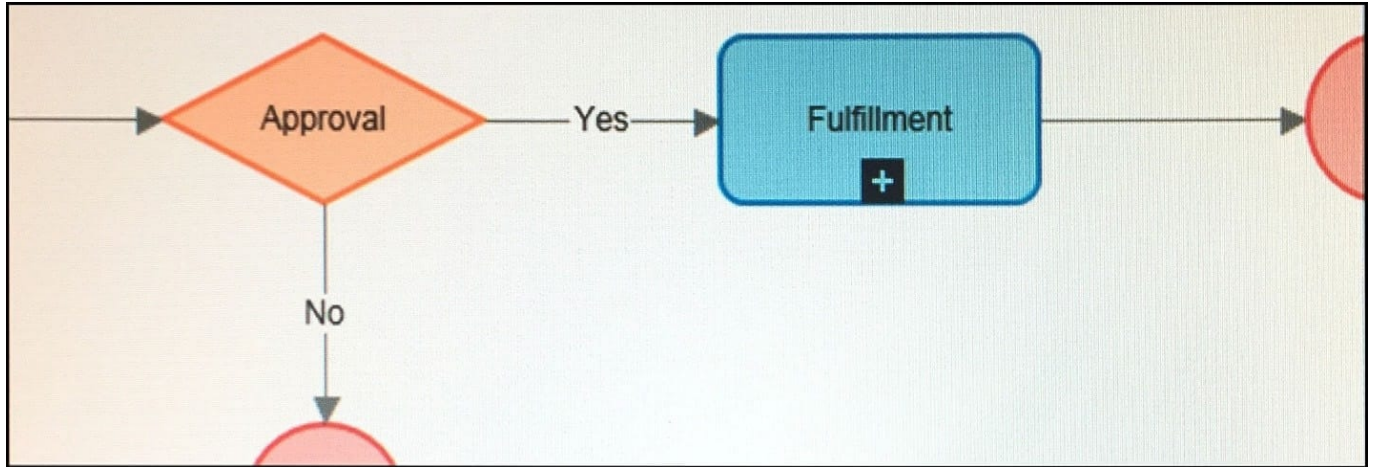

Development Task	Role
Direct the development of an auditing process for purchase requests.	System Architect
Design the class hierarchy of an application to share assests between IT and Accounting applications.	Lead System Architect
Configure a form to display the current department budget when entering a purchase request.	Senior System Architect

Correct Answer:

Development Task	Role
Configure a form to display the current department budget when entering a purchase request.	System Architect
Direct the development of an auditing process for purchase requests.	Lead System Architect
Design the class hierarchy of an application to share assests between IT and Accounting applications.	Senior System Architect

**QUESTION 5**

You want to modify the following order approval process so that a text message is sent to a customer when the order has been approved and will be fulfilled.

How would you modify the process to send the text message?

- A. Add a Utility to the connector leaving the Fulfillment subprocess. Configure the shape to call the CorrNew activity.
- B. Add a notification to the Yes connector.
- C. Add a Utility shape to the Yes connector. Configure the shape to call the CorrNew activity.
- D. Add an Assignment shape to the Yes connector and add a notification to the assignment.

Correct Answer: D
