Correct Answer: AD

QUESTION 4

Ar.mo Corporation is designing an Order Fulfillment application built on an Inventory application. Both applications reuse a section that displays Part details. Where do you configure the PartOetails section?

- A. In an Inventory ruleset within the Inventory application\\'s work pool class
- B. In an Order Fulfillment luleset within the Order Fulfillment application\\'s Parts data class
- C. In an Enterprise ruleset within the Inventory application\\'s Paits data class
- D. In an Order Fulfillment ruleset within the Order Fulfillment application\\'s work pool class

Correct Answer: C

QUESTION 5

Which three actions do you recommend to address their performance issue and ensure optimal application performance in the future? (Choose Three.)

- A. Dedicated a node to background processing.
- B. Review application environment sizing.
- C. Remove embedded dashboard reports from the manager portal.
- D. Minimize the usage of robotic automations.
- E. Review selection criteria of agent activities.

Correct Answer: ABE

Explanation: Six weeks after you deliver your application to production, you users report that the application slows down in the afternoon. The application is almost completely unresponsive for some users shortly after 3:00 P.M. Other users

do not experience this problem until later in the day.

You do not have access to the Production environment, but you do have access to AES. The production environment has three nodes and a load balancer. You need to resolve this issue because a new division of the organization will start

using the application next month.
