QUESTION 1

XVZ Corporation would like: a report that shows the number of employees who have been with the company more than 20 years, between 15 and 20 years, between 10 and 15 years, between 5 and 10 years, and less than 5 years. How do you implement this report using Pega?

- A. Use a SQL Function.
- B. Use a ListView with a custom getContent Activity.
- C. Use a correlated subreport.
- D. Use a Connect-SQL rule.

Correct Answer: C

QUESTION 2

An application consisting of a single case requires sending correspondence at a designated time with minimal delay. The existing solution uses an assignment to pause the case until an SLA invokes the escalation activity that sends the correspondence. Occasionally there is a delay in sending the correspondence.

Which two factors contribute to the delay? (Choose Two)

- A. The number of queued SI A objects
- B. Multiple open assignments on the same case
- C. Error handling for locked items
- D. Correspondence rule configuration

Correct Answer: AB

QUESTION 3

XYZ Corp users are experiencing delays in the application that you suspect is related to the database.

Which two options do you recommend to isolate the issue? (Choose Two)

- A. Write Pega logs to the database server.
- B. Investigate when the database is used most heavily.
- C. Lower query-time-related alert thresholds.
- D. Increase the threshold for blob-size alerts.

Correct Answer: BC

QUESTION 4

Which two tools and/or methods support continuous integration practices? (Choose Two)

- A. Performing UI regression testing
- B. Leveraging release toggles
- C. Using an automation server to invoke unit test suites
- D. Configuring pre and post import steps

Correct Answer: BC

QUESTION 5

Select the option in which you would define Content Security Policies.

- A. To prevent the browser to load content from untrusted sources
- B. To restrict what data a user can view in a case the user can open
- C. To define security for case attachments
- D. To configure security for the content management integration

Correct Answer: A
