QUESTION 1

Which issue do you address by simulating a data source?

- A. You need to test a save plan for a savable data page that updates the cost of coverage options for insurance policies.
- B. In production, the customer database needs to be taken off-line overnight for scheduled maintenance.
- C. The product database moves to a new data source accessible by a web service that is not yet configured.
- D. During staging, you need to access realistic customer data without exposing personally-identifying information to testers.

Correct Answer: D

QUESTION 2

An order fulfillment case type allows a customer to update user profile information during the order placement stage. The user profile consists of the following three pages: Account ID and password Customer contact information A list of open orders with the status of each order How do you configure the case type to allow customers to update any of the user profile pages at any time during case processing?

- A. Add an optional process to the case workflow.
- B. Add a button for each profile page to each assignment.
- C. Add an alternate stage to the case life cycle.
- D. Add a set of optional actions to the case workflow.

Correct Answer: D

QUESTION 3

A hotel booking application allows customers to change rooms after making a reservation. Each room's status in each hotel is stored on a data page sourced from an external database table. Which two configuration options, when applied in combination, do you use to update the database table when a customer changes rooms? (Choose Two)

- A. A savable data page that contains the room information
- B. A when rule to trigger the database update
- C. A data transform to copy updates to the data page
- D. An editable data page that contains the room information

Correct Answer: CD

QUESTION 4

Before development, your team creates a spreadsheet with work items to populate the backlog. All work items that describe business requirements are prioritized as Must have. You also create work items to address:

A future enhancement request to group a set of existing steps into a multistep form

A drop-down list that is missing one of the required options -- This work item is in progress because the missing option prevents work from being done

How do you populate the backlog directly from the spreadsheet?

- A. Create bugs
- B. Create feedback
- C. Import stories
- D. Create stories

Correct Answer: C

QUESTION 5

Based on security factors, which two options are considered strong passwords? (Choose Two)
