QUESTION 1

A requirement states: The tax identification number must contain 10 digits. How do you configure the field to support this requirement?

- A. Set the minimum and maximum values to "10" in a text field
- B. Use an edit validate rule that validates the tax identification number pattern.
- C. Use a decimal property type and make the field required.
- D. Configure a validate rule to test the tax identification number pattern.

Correct Answer: B

QUESTION 2

Which two statements about data objects are true? (Choose Two)

- A. Data objects can reuse assets from an existing data object through inheritance.
- B. A draft data object references a data type.
- C. A data object created in App Studio creates a data type in Dev Studio.
- D. Data objects are sourced from an external system of record.

Correct Answer: AC

QUESTION 3

A requirement states: Loan applicants must enter their annual salary. If the salary is above the qualifying threshold, the application is automatically approved. If the salary is below the threshold, the applicant must identify a cosigner.

Select the two configuration options that follow best practices to meet the requirement. (Choose Two)

- A. Design a user view with an annual salary field and a data relationship for cosigner information. Use a visibility condition to display the cosigner information when the salary is below the threshold.
- B. Use a collect information step with an annual salary field. Use a decision shape to determine whether to advance to a step to enter cosigner information or complete the process.
- C. Design a user view with an annual salary field. Create an optional action to collect information about the cosigner and assign the action to the appropriate stage.
- D. Create an assignment step for a loan officer to review the applicant's annual salary and determine if a cosigner is necessary.

Correct Answer: AB

QUESTION 4

A form must support accessibility.

How do you enable a user to specify a date?

- A. Configure a text box to allow date entry.
- B. Use a calendar control that displays an entire year.
- C. Use a calendar control that displays an entire month.
- D. Provide separate controls for month, day, and year.

Correct Answer: D

QUESTION 5

Sales managers must be able to approve sales quote proposals by email and from a mobile device. How do you implement this requirement?

- A. Add an Approve/Reject step and enable email and mobile approval.
- B. Add an Approve/Reject step and a Send Email step.
- C. Add an Approve/Reject step with mobile approval enabled and a Send Email step.
- D. Add an Approve/Reject step and enable email notifications on the case type.

Correct Answer: C
