QUESTION 1

Which two of the following use cases do you implement by using one or more calculated fields? (Choose Two)

- A. A sales representative wants to quote the cost of an insurance policy based on selected coverage options.
- B. An accountant wants to list the largest order for the last month, for each customer account.
- C. A project manager wants to estimate the cost of painting a banquet hall based on labor and materials required.
- D. A certification manager wants to determine the number of exams conducted at each testing facility in the current quarter.

Correct Answer: AC

QUESTION 2

You are implementing a UI form collecting job applicant information. Users must provide values to certain fields before submitting the form. Which configuration adds asterisks to indicate the mandatory fields on the form?

- A. Use a Validate rule to verify the mandatory fields have a value
- B. Configure the mandatory fields as Required in the section rule
- C. Use multiple Validate rules for each mandatory field
- D. Use an Edit Validate rule to verify if each of the mandatory properties has a value

Correct Answer: B

QUESTION 3

You create an application for employees to submit timesheets. Employees enter work, vacation, and sick time for a particular week. On the entry form, employees see a summary of the total hours entered. After the employee submits the timesheet, the application displays remaining vacation and sick time for the employee. To configure the form where users enter hours, select the best configuration option to calculate the total hours for the week.

- A. Use a When rule. When the value of any work, vacation, or sick time changes, the total hours change.
- B. Use declarative processing. When the value of any work, vacation, or sick time changes, the total hours change.
- C. Use procedural processing. When the value of any work, vacation, or sick time changes and the user submits the form, the total hours change.
- D. Use a data transform. When the user enters the form, the data transform determines the sum of the work, vacation, and sick time properties.

Correct Answer: B

QUESTION 4

DRAG DROP

Select each description on the left and drag it to the correct field type on the right.

Select and Place:

Description	Answer Area
A collection of related values that makes up a single employee record
