Correct Answer:

Service Steps Order

-
-
-
-
-

Service Steps Order

- 1 Request processing
- 2 Map inbound data
- 3 Inbound request received
- 4 Map outbound data
- 5 System returns a response

QUESTION 2

To reduce training requirements for users, a company wants to utilize the existing front end of their application. How can a third-party application use Pega Platform?

- A. By using middleware tools in application servers
- B. By using database tables for staging the requests
- C. By using REST calls from the Pega API
- D. By exposing third-party application services

Correct Answer: C

QUESTION 3

In which scenario would a Declare OnChange rule be appropriate?

- A. During a nightly backup process, only updated fields are backed up.
- B. When a developer changes a view, the change is checked into a development branch.
- C. When a user updates their address, the active case is suspended until the address can be confirmed.
- D. When a manager approves a case, the case is routed back to the appropriate case worker.

Correct Answer: C

QUESTION 4

A flow action calls a pre-processing data transform to initiate values. There are several flow actions available for the assignment. You want to make sure that the values are only initiated once for each flow action.

How do you implement a solution?

- A. Add logic to the pre-processing data transform to test if values were already initiated.
- B. Do nothing. The pre-processing data transform is only called once for each assignment.
- C. Make sure that the flow action does not have the highest likelihood since it will always be invoked.
- D. Configure the data transform as post-processing instead of pre-processing.

Correct Answer: A

QUESTION 5

Select the three Pega best practices for developing activities. (Choose Three)

- A. Keep activities short. Limit your activities to fewer than 15 steps.
- B. Limit activity calls to at most three to prevent performance problems.
- C. Limit custom Java steps whenever possible.
- D. Use only activities to support queue processing and interfaces.
- E. Limit the use of activities. Use alternative rule types such as data transforms whenever possible.

Correct Answer: ACE
