QUESTION 1

DRAG DROP

You are developing desktop flows for a company.

You need to use Recorder to record steps that you are performing in target applications.

Which recording modes will Recorder use? To answer, drag the appropriate recording modes to the correct target applications. Each recording mode may be used once, more than once, or not at all. You may need to drag the split bar

between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

The screenshot shows the Recorder interface with three columns: 'Recording modes', 'Target application', and 'Recording mode'. The 'Recording modes' column contains three boxes: 'Standard', 'Image based', and 'Web'. The 'Target application' column contains four items: 'Web browser', 'iFrame within a web browser', 'Java applet', and 'Windows application'. The 'Recording mode' column contains four empty boxes, each labeled 'Recording mode'.

Correct Answer:

The screenshot shows the Recorder interface with the correct answer. The 'Recording modes' column contains three boxes: 'Standard', 'Image based', and 'Web'. The 'Target application' column contains four items: 'Web browser', 'iFrame within a web browser', 'Java applet', and 'Windows application'. The 'Recording mode' column contains three boxes: 'Web', 'Image based', and 'Standard'.

QUESTION 2

HOTSPOT

You are developing a custom connector.

You need to create the definition for the connector.

Which features should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Scenario	Feature
Define operations that users can perform.	<input type="checkbox"/> Code <input type="checkbox"/> Action <input type="checkbox"/> Policy <input type="checkbox"/> Trigger
Define actions that will be invoked by events.	<input type="checkbox"/> Code <input type="checkbox"/> Action <input type="checkbox"/> Policy <input type="checkbox"/> Trigger
Change the host URL for specific actions.	<input type="checkbox"/> Code <input type="checkbox"/> Action <input type="checkbox"/> Policy <input type="checkbox"/> Trigger
Extract data from responses by using regex expressions.	<input type="checkbox"/> Code <input type="checkbox"/> Action <input type="checkbox"/> Policy <input type="checkbox"/> Trigger

Correct Answer:

Scenario	Feature				
Define operations that users can perform.	<table border="1"><tr><td>Code</td></tr><tr><td>Action</td></tr><tr><td>Policy</td></tr><tr><td>Trigger</td></tr></table>	Code	Action	Policy	Trigger
Code					
Action					
Policy					
Trigger					
Define actions that will be invoked by events.	<table border="1"><tr><td>Code</td></tr><tr><td>Action</td></tr><tr><td>Policy</td></tr><tr><td>Trigger</td></tr></table>	Code	Action	Policy	Trigger
Code					
Action					
Policy					
Trigger					
Change the host URL for specific actions.	<table border="1"><tr><td>Code</td></tr><tr><td>Action</td></tr><tr><td>Policy</td></tr><tr><td>Trigger</td></tr></table>	Code	Action	Policy	Trigger
Code					
Action					
Policy					
Trigger					
Extract data from responses by using regex expressions.	<table border="1"><tr><td>Code</td></tr><tr><td>Action</td></tr><tr><td>Policy</td></tr><tr><td>Trigger</td></tr></table>	Code	Action	Policy	Trigger
Code					
Action					
Policy					
Trigger					

QUESTION 3

You are creating a cloud flow that will use two Update Row actions to interact with Microsoft Dataverse. Neither of these actions are dependent on each other.

You must minimize the amount of processing time required to complete the flow.

You need to implement the actions in the cloud flow.

Solution: Create a switch condition.

Does the solution meet the goal?

- A. Yes
- B. No

Correct Answer: B

QUESTION 4

You need to configure permissions for the Purchase order quantity flow.

Which permission should you assign?

- A. Co-owner
- B. Run-only user
- C. Owner
- D. User

Correct Answer: B

To configure permissions for the Purchase order quantity flow, you should assign the run-only user permission to the finance clerk. This will allow them to run the flow without being able to edit or share it¹. The other permissions are not suitable for this scenario because:

1.

Co-owner permission would give the finance clerk full access to edit, share, and delete the flow, which is not necessary or desirable¹.

2.

Owner permission would transfer the ownership of the flow to the finance clerk, which would remove your access and control over it¹.

3.

User permission would not allow the finance clerk to run the flow at all, only to view it¹.

QUESTION 5

You are developing a desktop flow.

You need to include an IF statement that contains AND logic within the flow.

Which expression should you use for the IF statement?

- A.

```
IF $'''%IsEmpty(Variable1)% AND %IsEmpty(Variable2)%'' = $''True''
```
- B.

```
IF IsEmpty(IsEmpty(Variable1) AND IsEmpty(Variable2))
```
- C.

```
IF IsEmpty(Variable1 AND Variable2)
```
- D.

```
IF (IsEmpty(Variable1) OR IsEmpty(Variable2)) = $''True''
```
- E.

```
IF (IsEmpty(Variable1) AND IsEmpty(Variable2)) = $''True''
```

A. Option A

B. Option B

C. Option C

D. Option D

E. Option E

Correct Answer: C
