QUESTION 1

HOTSPOT

You have a Power BI report with a page named RevReceived. The page shows gross revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue.

What should you do? To answer, select the appropriate option in the answer area.

Hot Area:

You should

	▼
Copy the visuals from RevReceived to a new page.	
Duplicate the RecReceived page and update the duplicate copy	
Import the RecReceived page.	
Modify the RecReceived page.	

Correct Answer:

You should

	▼
Copy the visuals from RevReceived to a new page.	
Duplicate the RecReceived page and update the duplicate copy	
Import the RecReceived page.	
Modify the RecReceived page.

QUESTION 2

DRAG DROP

A travel company plans to use the Power Platform to create tools that help travel agents book customer travel.

You need to recommend solutions for the company.

What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Business rule	If a customer is traveling with a person under the age of 18, a field must display to collect date of birth for the under 18 traveler only.
Business process flow	
Power Automate	Ensure that all travel agents use the same process with all customers.
Power BI	Send a confirmation email to customers after reservations are complete.

Correct Answer:

	If a customer is traveling with a person under the age of 18, a field must display to collect date of birth for the under 18 traveler only.
	Business rule
	Ensure that all travel agents use the same process with all customers.
	Business process flow
Power BI	Send a confirmation email to customers after reservations are complete.
	Power Automate

QUESTION 3

HOTSPOT

You are creating a model-driven Power Apps app. You want to ensure that the app can be used by individuals who have vision impairments.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Answer Area

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input checked="" type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input checked="" type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input checked="" type="radio"/>	<input type="radio"/>

Box 1: Yes

You can use keyboard shortcuts in PowerApps. Keyboard shortcuts give you an alternate way to do common tasks instead of using your mouse or tapping with your finger. They help in seamless navigation of the interface.

Box 2: No

The following software combinations are the supported recommendations for consuming PowerApps with a screen reader:

Windows: Microsoft Edge / Narrator

macOS: Safari / VoiceOver

Android: PowerApps app / Talkback

iOS: PowerApps app / VoiceOver

Box 3: Yes

Users who have vision, hearing, or other impairments can use your canvas app more easily and successfully if you consider accessibility as you design how the app looks and behaves. If you're not sure how to make your app more

accessible, you can run the Accessibility checker in PowerApps Studio. This tool not only finds potential accessibility issues but also explains why each might be a potential problem for users who have a specific disability and offers

suggestions on how to resolve each issue. The Accessibility checker detects screen-reader and keyboard issues for you, and you can find information about how to fix color-contrast issues by using accessible colors.

QUESTION 4

HOTSPOT

You create a Power Virtual Agents chatbot for use with Microsoft Teams. You are testing the chatbot.

Testers report the following issues:

1.

Changes that you make to the chatbot are not seen by testers.

2.

When users enter the word refund the chatbot must ask the user the product for which they would like a refund. The chatbot does not ask the user for product information.

You need to determine what needs to be done to fix the issues.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Missing changes

	▼
Create a new chatbot.	
Publish the chatbot.	
Save the topic.	
Share the chatbot.	

Refund responses are not working as expected.

	▼
Change security.	
Create a refund topic.	
Create a refund chatbot.	

Correct Answer:

Answer Area

Missing changes

▼

Create a new chatbot.

Publish the chatbot.

Save the topic.

Share the chatbot.

Refund responses are not working as expected.

▼

Change security.

Create a refund topic.

Create a refund chatbot.
