### QUESTION 1

A company is creating a canvas app to track and analyze customer visits to their retail stores. Data about customer visits is stored on-premises at each retail store location.

The app must display data about customer visits when users launch the app. You need to ensure that the data is available for consumption by the app.

Which tool should you use?

- A. Data gateway
- B. Data source
- C. Connector
- D. Microsoft Dataverse
- E. Power Automate

Correct Answer: A

A data gateway is a tool that allows you to connect to on-premises data sources, such as the customer visit data stored at each retail store location in this scenario. The data gateway acts as a bridge between the on-premises data and the

cloud-based Power Platform, allowing the canvas app to access and display the customer visit data in real-time.

It is important to note that this is not a definitive answer and the final decision should be taken after a careful analysis of the company's infrastructure and the data source.

---

### QUESTION 2

A company uses Dynamics 365 Supply Chain Management.

You need to use Power Automate to automate the process of receiving and tracking raw materials.

Which type of connector should you use?

- A. Common Data Service
- B. Dynamics 365
- C. Dynamics 365 for Fin and Ops
- D. Dynamic Signal

Correct Answer: A

Dynamics 365 for Finance and Operations is now being licensed as Dynamics 365 Finance and Dynamics 365 Supply Chain Management. You can use Common Data Service to enable the flow of data between Finance and Operations apps and Dynamics 365 Sales. Reference:

### QUESTION 3

#### DRAG DROP

A company is implementing Power BI to track sales.

Each of the company's regions has specific quarterly and yearly sales goals.

You need to build a Power BI dashboard for various reporting requirements.

Which chart types should you use? To answer, drag the appropriate chart types to the correct requirements. Each chart type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view

content.

NOTE: Each correct selection is worth one point.

Select and Place:

## Answer Area

### Chart types

### Requirement

### Chart type

Donut

Show the quarterly sales total to date in relation to the sales goal.

KPIs

View the sales trend by month of the sales year to date for all regions.

Line chart

View the year-to-date sales as a percentage by region.

Matrix

Correct Answer:

## Answer Area

### Chart types

### Requirement

### Chart type

Show the quarterly sales total to date in relation to the sales goal.

View the sales trend by month of the sales year to date for all regions.

View the year-to-date sales as a percentage by region.

Box 1: KPIs

A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal.

Box 2: Line chart

Line charts emphasize the overall shape of an entire series of values, usually over time.

Box 3: Donut

Doughnut charts are similar to pie charts. They show the relationship of parts to a whole. The only difference is that the center is blank and allows space for a label or icon.

### QUESTION 4

A company has an online store to sell toys. The volume of order tracking requests has increased.

You need to allow customers to use an interactive interface on the website to request order tracking Information.

Which technology should you use?

- A. Customer Service Insights
- B. Power BI
- C. Power Virtual Agents chatbots
- D. Power Automate flows

Correct Answer: C

The ask is not to just provide the customer information but it should be '\\interactive\\' and customer perform '\\request\\' action - which is possible with Power Virtual Agent

## QUESTION 5

### HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statements	Yes	No
Sharing a model-driven app with a user is the only security required for users to access the app.	<input type="radio"/>	<input type="radio"/>
You can change the order of the columns in a view once you have created and published a view.	<input type="radio"/>	<input type="radio"/>
System views must be shared for everyone to view them.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statements	Yes	No
Sharing a model-driven app with a user is the only security required for users to access the app.	<input checked="" type="radio"/>	<input type="radio"/>
You can change the order of the columns in a view once you have created and published a view.	<input type="radio"/>	<input checked="" type="radio"/>
System views must be shared for everyone to view them.	<input type="radio"/>	<input checked="" type="radio"/>
