QUESTION 4

What is true about a master detail relationship? (Choose three.)

- A. To create multilevel master-detail relationships, you need the "Customize Application" user permission.
- B. Standard objects can't be on the detail side of a custom object in a master-detail relationship.
- C. You can create a master-detail relationship if the custom object already contains data.
- D. You can create a relationship as a lookup and then convert it to master-detail if the lookup field in all records contains a value.
- E. By default, records can be reparented master-detail relationships.

Correct Answer: ABD

QUESTION 5

What are the three groups of Lightning Components you can add, when working with the Lightning App Builder? (Choose three.)

- A. Custom-Managed
- B. Standard
- C. Custom
- D. Standard-Managed

Correct Answer: ABC

Standard components - are Lightning components built by Salesforce.

Custom components - are Lightning components that you or someone else have created. With some modifications, custom Lightning components can work in the Lightning App Builder. For more information on making Lightning Components

App Builder-friendly, see the Lightning Components Developer Guide.

Third-Party Components on AppExchange - The AppExchange provides a marketplace for Lightning components. You can find packages containing components already configured and ready to use in the Lightning App Builder.
