	Product Vision
	Product Roadmap
	Theme
	Epic
	User Story
	Task

#### QUESTION 4

Which are some of the most important benefits of an Agile team sitting together in a co-located, open environment?

A. Osmotic communication is reduced; space is used more efficiently; groups work together more effectively, and team dynamics are improved.

- B. Costs are reduced as the need for conference rooms decreases, and the team can keep track of where members are more accurately.
- C. Team members can be held more accountable for their time and effort, and pair programming is easier as people have less distance to move to sit with their partner.
- D. Communication is improved; wait-time and rework are reduced; barriers between groups break down, and groups gain respect for each other professionally.

Correct Answer: D

---

#### QUESTION 5

When an Agile project team receives an "emergency request" during an iteration, which is the best first step that the Agile project manager should take?

- A. Stop work on unfinished user stories and work on the urgent request.
- B. Call a team meeting and change the iteration scope to include the request.
- C. Provide the customer with options provided by the project team.
- D. Explain that the team cannot do the added work until the next iteration.

Correct Answer: C
